

### Quality Control System

#### Design & Specification Control

Design Calculations  
& Fabrication Drawing  
(ASME/CSEL/KGS/KR/PED/etc.)

#### Production Realizing

Purchase Order Specification  
Purchase Order Requisition  
Purchase Order for Material  
Material Control  
Welding Control  
Heat Treatment Control  
Surface Treatment Control

#### Record Control

Manufacturer's Data Report  
Material Test Report & Certification  
Welding Procedure Specification  
NDE Report and Film  
Traveler  
NCR & Disposition Control  
Pressure Test Record

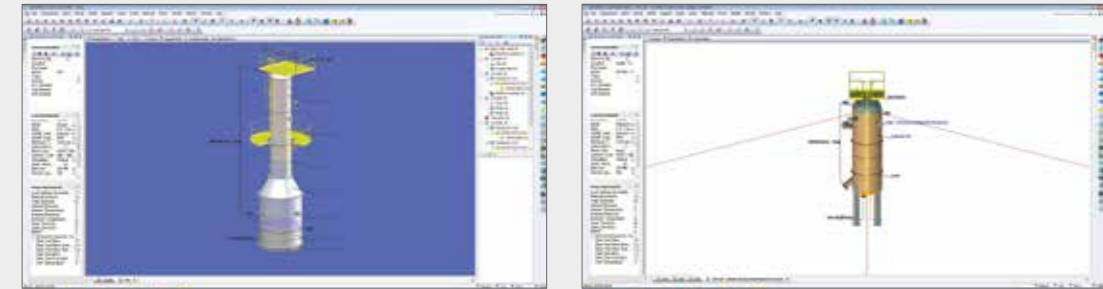

#### Inspection & Examination System

Inspection & Test Plan  
Inspection & Test Procedure  
Receiving Inspection  
MTR Verification  
Welding Visual and Suitability Examination  
Pressure Test & Leak Test  
Calibration Control

#### Design Specification Control

Made In Korea

# ANSWER

Your Reliable Partner  
Safety & Environment for Human Life

### ANSWER

ANSWER, established in 2000 as a company specializing in valves for ships, has accumulated experience from manufacturing small-size pressure vessels and, with its know-how on manufacturing technology as well as product groups covering inland plant in addition to marine plant equipment, it now aims to spread out into the world.

### Quality Management Policy

#### Best Quality

ISO 9001 & ASME Quality Control System  
Quality Management Policy

#### Best Cost

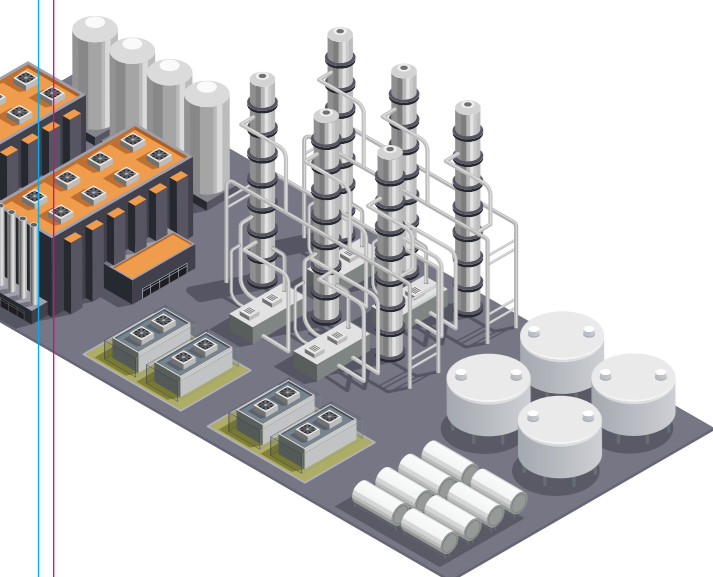

Competitive through process innovation

#### Best Safety

Answer complies with the ISO 45001 and puts top priority on the safety and health of employees and customers.

We are pioneering eco-friendly business with continuous research, development and investment. Accordingly, we are preparing for commercialization and supply of LPG & LNG fuel gas supply system, and equipment for bunkering system recently. It will be used not only for plant, but also for ships.

# ANSWER

We are providing ultimate equipment to the global market, which is various LNG & LPG Tank, Low Pressure CO2 Tank, Pressure Vessel, Storage Tank and Heat Exchanger as well as for oil & gas, refinery and petrochemical plant that not only meets but exceeds the expectations of our customers.

Our shop certified by ISO 9001:2015 with ISO 45001:2018, and also we have ASME S, U, U2 and National Board R certificate.

### Certificates

ISO 9001:2015    ISO 45001:2018    ASME [S]

ASME [U]    ASME [U2]    National Board [R]

## Power & Chemical Plant

We supply items for power plant, chemical plant, refinery, etc. Such as storage tanks, pressure vessel, drum, heat exchanger, paddle dryer, fire-fighting system.

## Ship Field

Answer manufacture the equipment for ship, such as fuel gas supply system, fire-fighting system, heat exchanger, scrubber.

### Scope of Work

Answer Co., Ltd. generates new values for the plant with the objective of maximizing added value to all stakeholders. By reinforcing the competency of all fields such as planning, design, manufacturing and operation, it is further strengthening global competitiveness for obtaining orders.

### Applicable Welding Process

GTAW(Gas Tungsten-Arc Welding)  
: Small size Pipe & Fitting and Thin plate welding  
FCAW(Flux-Cored Gas Arc Welding)  
: Normal size pipe & plate welding  
SAW(Submerged-Arc Welding)  
: Thick Plate welding(Generally over 20mm)  
SMAW(Shielded Metal-Arc Welding)  
: Site welding and repair welding(if necessary)

### Smart Factory System
